

COORDINATION OF KEY TASKS WORKPLAN

Administrative Officer – Farm & Property Management

Planning Period: _____ Prepared By: _____

Approved By: _____ Date: _____

1. Workplan Purpose

The purpose of this workplan is to provide a structured system for coordinating, assigning, monitoring and reporting key farm and property-management activities. It ensures that responsibilities are clearly allocated, deadlines are monitored and outstanding matters are followed through to completion.

Key Area	Key Tasks	Frequency	Responsible	Admin Officer Role	Performance Indicator
Farm Operations	Coordinate crop and livestock activities	Daily/Weekly	Farm Supervisor/Caretakers	Plan, coordinate and monitor	Activities completed as scheduled
Crop Production	Planting, weeding, fertilising, irrigation and harvesting	Seasonal/Weekly	Farm Workers	Maintain schedule and records	Crop activities completed on time
Livestock	Feeding, watering, health checks and stock counts	Daily	Caretakers/Workers	Monitor and verify	Animals properly cared for; records updated
Farm Workers	Attendance, duty allocation and supervision	Daily	Supervisor	Monitor attendance and performance	High task-completion rate
Property Management	Inspections and condition monitoring	Weekly/Monthly	Caretakers	Coordinate inspections and reports	Inspection reports completed
Accommodation	Occupancy, vacancies, leases and occupant records	Weekly/Monthly	Administrative Officer	Maintain portfolio records	Accurate occupancy records
Tenant Matters	Complaints, requests and follow-up	As required	Admin Officer/Caretaker	Log, coordinate and escalate	Issues resolved within agreed time
Maintenance	Repairs, defects and preventative maintenance	Daily/Weekly	Caretakers/Contractors	Log and coordinate work	Jobs tracked to completion
Procurement	Farm/property supplies and services	As required	Administrative Officer	Coordinate requests and approvals	Approved purchases documented
Stock Control	Feed, seed, fertiliser, cleaning materials and supplies	Weekly/Monthly	Responsible Staff	Verify records and stock levels	Minimal unexplained variances
Assets	Equipment and property asset monitoring	Monthly/Quarterly	Administrative Officer	Maintain asset register	Assets accounted for

Key Area	Key Tasks	Frequency	Responsible	Admin Officer Role	Performance Indicator
Records	Registers, logs, invoices and supporting documents	Daily/Weekly	Administrative Officer	Maintain and file records	Records complete and current
Reporting	Weekly and monthly management reports	Weekly/Monthly	Administrative Officer	Compile and submit reports	Reports submitted on time
Incidents	Losses, damage, illness, theft, accidents and disputes	Immediate	All Staff	Record, escalate and follow up	Incidents reported promptly

3. Daily Coordination Routine

- Morning: Confirm staff and caretaker attendance; review priorities; allocate duties; check livestock feeding, watering and health inspections; review urgent crop and property matters.
- During the Day: Monitor progress; coordinate maintenance and contractor activities; follow up on tenant/occupant requests; monitor crop and livestock activities; record problems, delays and incidents.
- End of Day: Verify completed tasks; identify outstanding work; update daily logs and registers; confirm livestock evening routines; escalate urgent or unresolved matters; prepare the daily operational summary where required.

4. Weekly Coordination Cycle

- Monday – Planning: Review outstanding work, establish weekly priorities, and allocate responsibilities and deadlines.
- Tuesday–Thursday – Implementation: Monitor progress, conduct inspections, follow up on maintenance, farm and property activities, and resolve operational issues.
- Friday – Review: Assess completed and outstanding tasks, review worker/caretaker performance, update records, prepare the weekly management report, and set priorities for the following week.

6. Performance Expectations

- Every key task has a responsible person.
- Deadlines are clearly communicated.
- Work is monitored and verified.
- Outstanding tasks are followed up.
- Problems are escalated promptly.
- Records are accurate and up to date.
- Workers and caretakers are properly supervised.
- Farm and property assets are protected.
- Management receives timely and accurate reports.

8. Coordination Control Cycle

- PLAN → ASSIGN → EXECUTE → MONITOR → VERIFY → RECORD → REPORT → FOLLOW UP
- The Administrative Officer should ensure that no important task is left without a responsible person, deadline, documented status or follow-up action.

5. Task Tracking Register

Date	Task	Responsible	Priority	Due Date	Status	Follow-up	Completion
			High/Med/Low		Pending/Completed		

Date	Task	Responsible	Priority	Due Date	Status	Follow-up	Completion
			High/Med/Low		Pending/Completed		
			High/Med/Low		Pending/Completed		
			High/Med/Low		Pending/Completed		
			High/Med/Low		Pending/Completed		
			High/Med/Low		Pending/Completed		
			High/Med/Low		Pending/Completed		

7. Weekly Performance Review

Tasks Planned:	_____	Tasks Completed:	_____
